

Purified anti-ovine IgG2 Antibody

Catalogue number: 4074

Size: 100µg (lyophilised)

Clone: McM3

Description: For use in the measurement of ovine IgG1 sub-class antibody. For *in vitro* research purposes only

Product details

Reactivity: Sheep

Antibody type and isotype: Monoclonal, murine IgG3

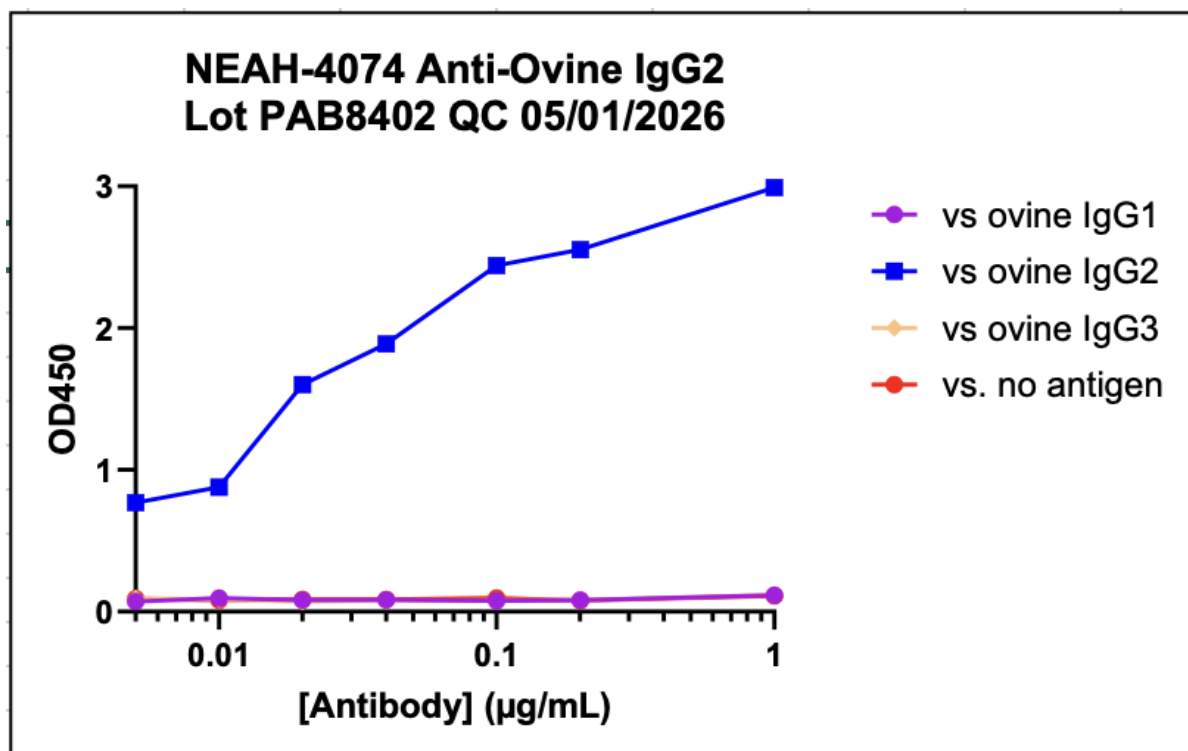

Host species: Mouse

Lot number: PAB8402

Storage & Handling: The antibody solution should be stored at +4°C. Long term storage at -20°C, avoid repeated freeze-thaw cycles.

Application(s): ELISA

Quality Assurance: By direct ELISA using recombinant ovine IgG1, IgG2 and IgG3.

Recommended Usage: For detection of ovine IgG2 subclass measurement by ELISA. Suggested use at 1:1000 dilution, titrate to 1:10,000. It is recommended that a specific titration is performed for each application.
