

## **Purified anti-porcine IgG1 antibody**

**Catalogue number:** NEAH-5060A

**Size:** 100µg, lyophilised.

**Clone:** 16B2.A2.B10

**Historical Information:** Product of a collaboration of The Moredun Group (UK), The Pirbright Institute (UK), New England Animal Health (USA), and Green Mountain Antibodies (USA).

**Description:** For use in the measurement of porcine IgG1 antigen. For *in vitro* research purposes only

### **Product details**

**Reactivity:** Porcine

**Antibody isotype:** Monoclonal, IgG1 (H+L)

**Host species:** Mouse

**Formulation:** sterile PBS, pH7.5

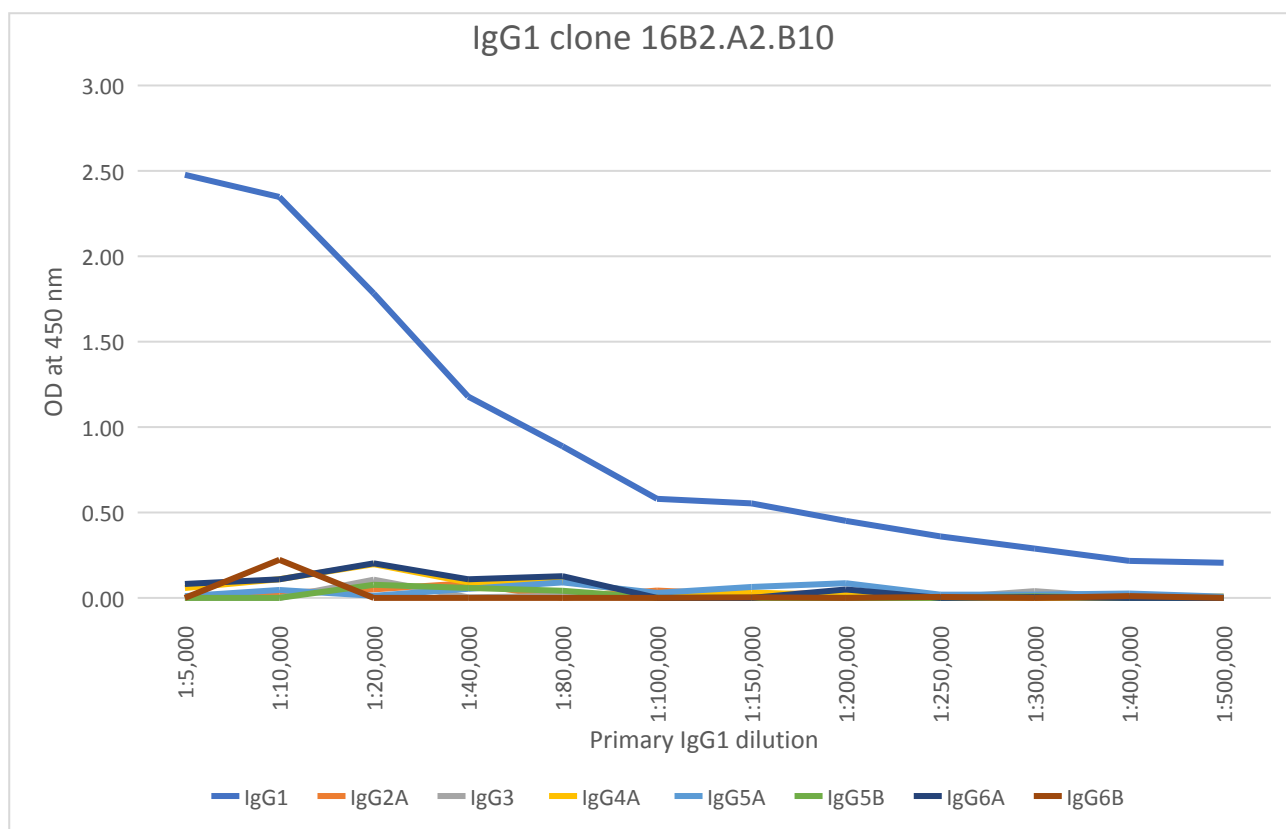

**Manufacturer:** New England Animal Health ([neah.org](http://neah.org))

**Lot number:**

**Storage & Handling:** Resuspend in 0.1 ml of sterile water. The antibody solution should be stored at +4°C. Long-term storage at -20 °C in 50% glycerol is recommended to avoid repeated freeze-thaw cycles.

**Application(s):** ELISA

**Quality Assurance:** The specificity of the unconjugated primary antibody was assessed by indirect ELISA. The antibody reacts to a recombinant whole molecule, porcine IgG1. No reactivity was detected against other recombinant porcine (IgG2A, 3, 4A, 5A, 5B, 6A and 6B) isotypes.

**Recommended Usage:** For ELISA, suggested use between 1:5,000 – 1:400,000 dilution. It is recommended that a specific titration is performed for each application.
